

# YOGI TOKEN WHITEPAPER

Version 1.3 – October 2025

---

## 1. Introduction

YOGI Token is a community-driven cryptocurrency built to empower decentralized lending, staking, and financial participation. Our mission is to create a sustainable ecosystem where the community benefits directly from token activity.

Unlike traditional finance or centralized platforms, YOGI Token ensures transparency, fairness, and rewards for all participants.

---

## 2. Problem Statement

Traditional lending and financial platforms are often centralized, opaque, and exclude smaller participants. Many projects promise high returns but fail to involve the community meaningfully.

YOGI Token solves this by:

- Allowing users to stake and lend in a community-centric ecosystem.
  - Providing rewards based on active participation.
  - Ensuring transaction fees and interest flow back to the community.
- 

## 3. Token Overview

Feature	Details
Name	YOGI Token
Symbol	YOGI
Blockchain	Solana (Devnet for testing, mainnet planned)
Total Supply	10,000,000 YOGI
Decimals	9
Mint Authority / Wallet	GEGwX3XMadgwPZ5Z4Q3tUmSb4MHMTqmBerFXhvAxRh5k
Token Mint Address	34G3jKGHaUm28SV21HMmojH8KNwZZedJsQqVXMLeVtXf
Token Account Address	DeLLxyoT8HVsaEzmRR62s89BhcC3sg2HPcwkw9NsmZmp
Recipient Wallet Address	GXVDawua3BsZJ8AMJPPBjBayReXhGsrzkW1Dkdei5UvS
Associated Token Account	4EkoQMyexFjaTw3W6qSE24uMg8TKPyEkzQswdthH6VbN
Token Type	SPL (Solana Program Library)

YOGI Token is mutable, allowing upgrades and integration with the ecosystem's smart contracts over time.

---

## 4. Use Cases

### 1. Community Lending

Users can lend YOGI Tokens and earn interest from borrowers. The platform takes a small fee, which is redistributed to token holders.

### 2. Staking Rewards

Stake YOGI Tokens in pools to earn rewards in YOGI or partner assets. Rewards scale with participation, incentivizing long-term involvement.

### 3. Ecosystem Governance

Token holders can vote on key ecosystem decisions, including interest rates, reward structures, and future expansions.

### 4. NFT & Gaming Integration (Future)

Tokens can be used in NFT marketplaces or gamified lending apps within the ecosystem.

---

## 5. Revenue Model

The YOGI ecosystem generates revenue in multiple ways:

1. **Transaction Fees:** Small fees on lending and borrowing transactions.
2. **Staking Fees:** Percentage of staking rewards reinvested into the ecosystem.
3. **Partnership Integrations:** Revenue from third-party projects that integrate with YOGI Token.
4. **Platform Services:** Premium lending or analytics tools offered to participants.

All revenue is partially redistributed to token holders to ensure community growth.

---

## 6. Roadmap

### Phase    Timeline    Key Milestones

Phase 1    Q4 2025    Token launch on Solana Devnet, website & metadata live

Phase 2    Q1 2026    Beta lending & staking platform

Phase 3    Q2 2026    Community governance system, NFT integration

Phase 4    Q3 2026    Launch on Solana Mainnet, strategic partnerships

Phase 5    Q4 2026    Full ecosystem expansion, cross-chain support

---

## 7. Security & Transparency

- All YOGI Token transactions are on-chain, ensuring transparency.
  - Smart contracts will undergo audits before mainnet deployment.
  - Wallets and token holders have full visibility of balances, lending pools, and fees.
- 

## 8. Community Engagement

YOGI Token is designed to evolve with the community:

- **Voting Rights:** Each token holder can vote on major changes.
  - **Educational Initiatives:** Guides and tutorials for lending, staking, and crypto literacy.
  - **Open Source:** Code and metadata are publicly available for review and contribution.
- 

## 9. Token Distribution

Category	Percentage	Notes
Community & Staking	50%	Rewards distributed via staking & lending
Founders & Team	20%	Locked for 1 year, gradual release
Ecosystem Development	20%	Marketing, partnerships, tech upgrades
Reserve / Liquidity	10%	Emergency liquidity & expansion

---

## 10. Metadata

The token metadata is fully hosted and accessible:

**YOGI Token Metadata JSON** – linked and live at:

<https://ym747.github.io/yogi-token/metadata.json>

---

## 11. Contact & Resources
